Thanks, are these still occurring this week:

Region 10

On January 14, Region 10 Administrator Dennis McLerran will meet with Barry Crawford, Vice President of Operations for FMC Corporation, to discuss cleanup activities at the chemical company's former phosphate processing facility in Pocatello (southeast), Idaho. Closed Press, Seattle, WA.

Subject: R10 weekly

Hi There:

Here's our report for next week. The Hanford news release likely will go next week, not this week. We are still waiting for DOE signature.

Let me know if there are questions.

Thanks.

Marianne
